

Central Park 2008 Breeding Bird Census Observations

The "Observed Nest" column is just that: if a nest was seen. "Observed Feeding Young" is if an adult was observed feeding a young bird away from the nest. "Observed Carrying Food" could be a bird with a nest in that zone or just passing through that zone (but most likely breeding in the park).

Common Name	Species Alpha	Observed Nest	Observed Feeding Young	Observed Carrying Food
American Crow	AMCR			
American Redstart	AMRE			
American Robin	AMRO	YES	YES	YES
Baltimore Oriole	BAOR	YES	YES	YES
Barn Swallow	BASW		YES	
Eastern Towhee	EATO			
Black-and-White Warbler	BAWW			
Black-capped Chickadee	BCCH			YES
Brown-headed Cowbird	BHCO			
Blue Jay	BLJA	YES	YES	YES
Brown Thrasher	BRTH			
Northern Cardinal	NOCA			
Canada Warbler	CAWA			
Carolina Wren	CAWR			YES
Cedar Waxwing	CEDW	YES		
Chipping Sparrow	CHSP		YES	YES
Chimney Swift	CHSW			
Common Grackle	COGR	YES	YES	YES
Common Yellow Throat	COYE			
Downy Woodpecker	DOWO	YES	YES	YES
Eastern Kingbird	EAKI	YES	YES	YES
Eastern Wood-Peevee	EAWP			
European Starling	EUST	YES	YES	YES
